

TOWN OF EAST WINDSOR INFORMATION SHEET

PROPOSED NORTH ROAD SEWER EXTENSION PROJECT

PROJECT DESCRIPTION The Proposed North Road Sewer Extension Project would extend sewer service from Shoham Road along North Road to Mullen Road. The Project consists of replacement of a failing 40 year old pump station, construction of 7,740 linear feet of new gravity sewer, and 1,000 linear feet of a new force main along the Route 140/North Road Business Corridor.

AN ECONOMICAL AND ENVIRONMENTAL BENEFIT

- *"..The proposed sewer extension along North Road is a project that is long overdue. Of the areas in East Windsor that can economically and environmentally benefit from the sewer extension, North Road is certainly on top of the list."*
Director of Health in letter dated May 1, 2009 to Superintendant of WPCA
- The availability of sanitary sewers would attract new businesses, increasing the Town's tax base, and provide new job opportunities.
- The failing 40 year old North Road pump station must be replaced in the next 24 months. With a replacement cost estimated to be \$400,000, the Project incorporates replacement of this pump station.
- To continue to move forward with the goals set forth in the 2004 Plan of Conservation and Development, sewer service is required to take action for the restructuring of North Road into a new business corridor, optimizing business and economic opportunities.
- In terms of affordability, citizens should understand that the healthy decrease in our current debt service budget allows East Windsor to take on new projects.

FUNDING OPPORTUNITY

On February 13, 2009, Congress passed the American Recovery and Reinvestment Act (ARRA) of 2009 based on three immediate goals:

- Create new jobs and save existing ones
- Spur economic activity and invest in long-term growth
- Foster unprecedented levels of accountability and transparency in government spending

We can apply the ARRA Stimulus Money available to our Town to help build a stronger East Windsor and to help keep our taxes affordable

AVAILABLE FEDERAL AND LOCAL FUNDING

For over a year, East Windsor has been working with USDA to acquire ARRA funding to help with this project.

Total Plan Cost:	\$3,887,000
ARRA GRANT (43.9%)	\$1,707,000 (At No Cost to our Town)
ARRA LOAN (56.1%)	\$2,180,000 (Offered at 3.25% loan over 40 years)

JULY INFORMATIONAL Q&A SESSION SCHEDULE

Informational Sessions will be held at the East Windsor Water Pollution Control Authority's Facility located at 192 South Water Street, East Windsor, CT. Please contact the staff at 860-292-8264 for additional information

Tuesday, July 13, 2010 1:30 p.m. – 3:30 p.m.
Thursday, July 15, 2010 9:30 a.m. – 11:30 a.m.

Tuesday, July 20, 2010 9:30 a.m. – 11:30 a.m.
Thursday, July 22, 2010 1:30 p.m. – 3:30 p.m.

INVESTMENT IN OUR COMMUNITY

The Proposed North Road Sewer Extension Project offers the ability for revenue gains, jobs to East Windsor, and the opportunity to revitalize existing businesses in this valuable business corridor. It is an essential Project to keep our mill rate affordable, create sustainable employment, and expand our tax base through smart planned business growth.
